Food Truck Design Challenge

Food trucks have to have to keep food warm and cold.

What you need to do...

How long can you keep an **ice cube from melting?**

Let's experiment and try wrapping ice cubes in different materials in the same temperature.

Which material works best to keep the ice cube frozen for the longest?

Things to think about:

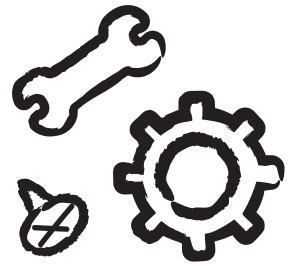

Does it make a difference if the material is **dry or wet?**

Look in your kitchen to get some ideas from how your food is packaged!

Record your findings on the next page!
