World School

Would you like
to go on holiday in
an RV?

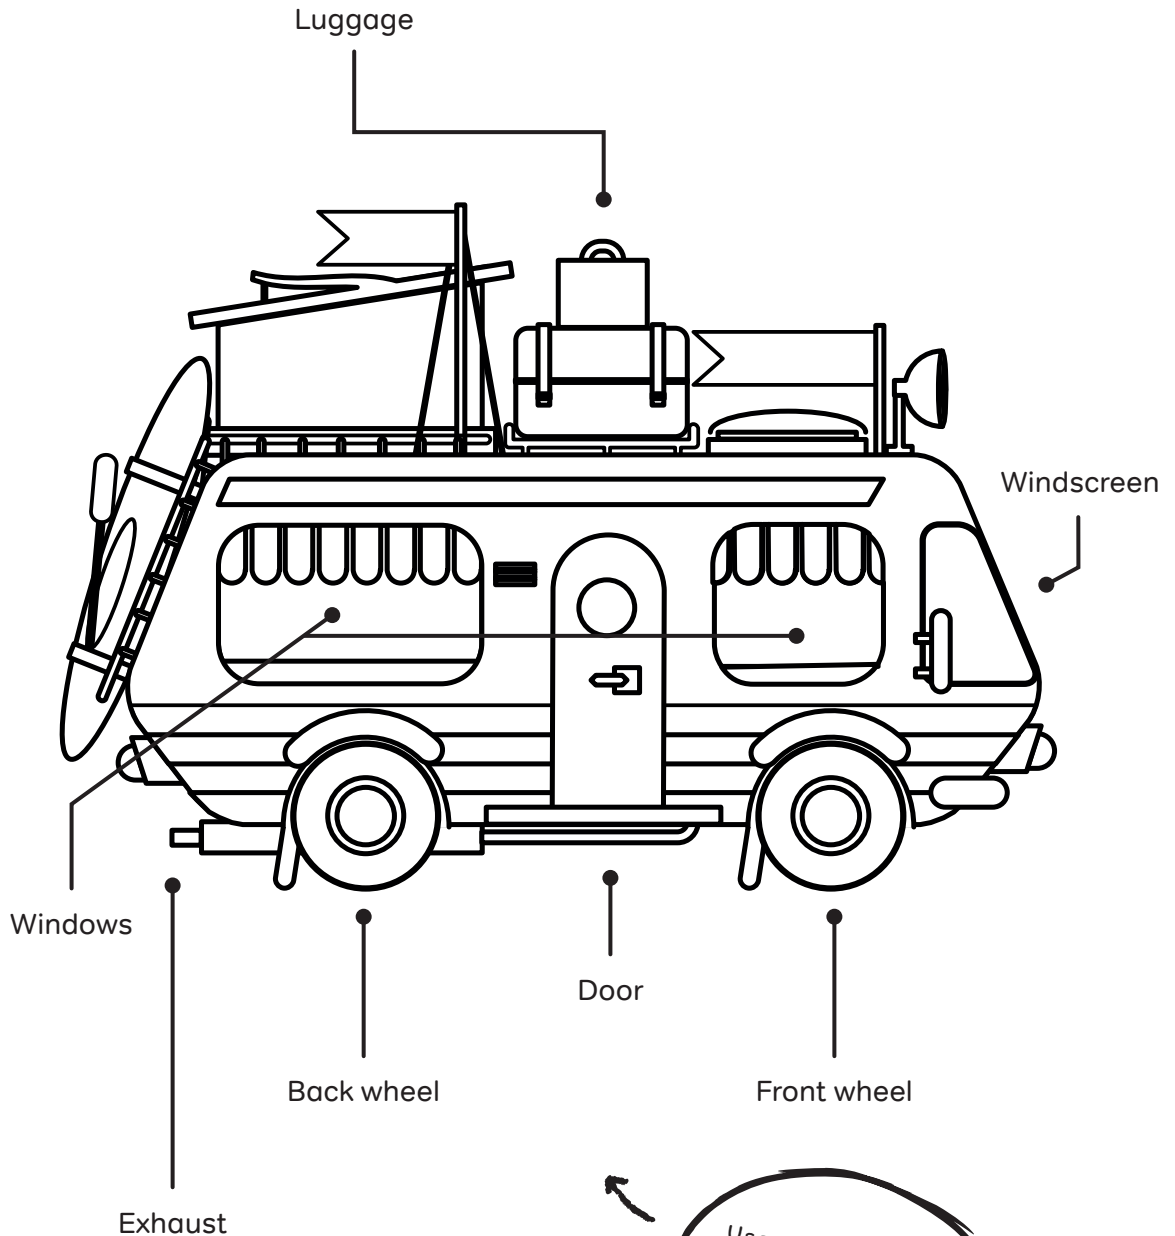

RV

Owner's Workshop Manual

- RVs are vehicles that you can sleep in!
- Sometimes they have showers and even televisions inside them
- They usually have small kitchens with a refrigerator
- Another word for an RV is a 'camper-van'
- Some RVs even have little toilets inside them... *Stinky!*

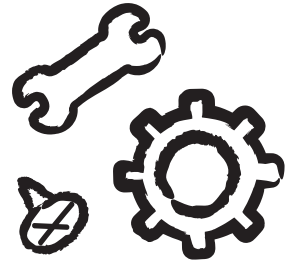

RV

Information

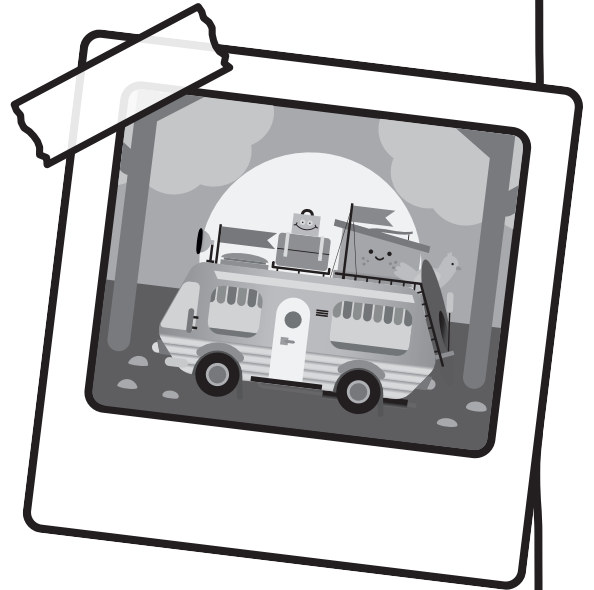

Use your favorite colors to decorate the RV!

RV Design Challenge

An RV is like a home on wheels, but it's a small space that can't *quite* fit in the same things as a home.

What you need to do...

Design an RV that gives you everything you need while you are on the road.

Remember that there is not a lot of space so get clever – maybe your desk can also be a bed?!

Design your RV on the next page...

Things to think about:

Where will you sleep?

What can be used as two things?

Who will travel with you in your RV? Where will they sleep?
