World School

*The original
horse power!*

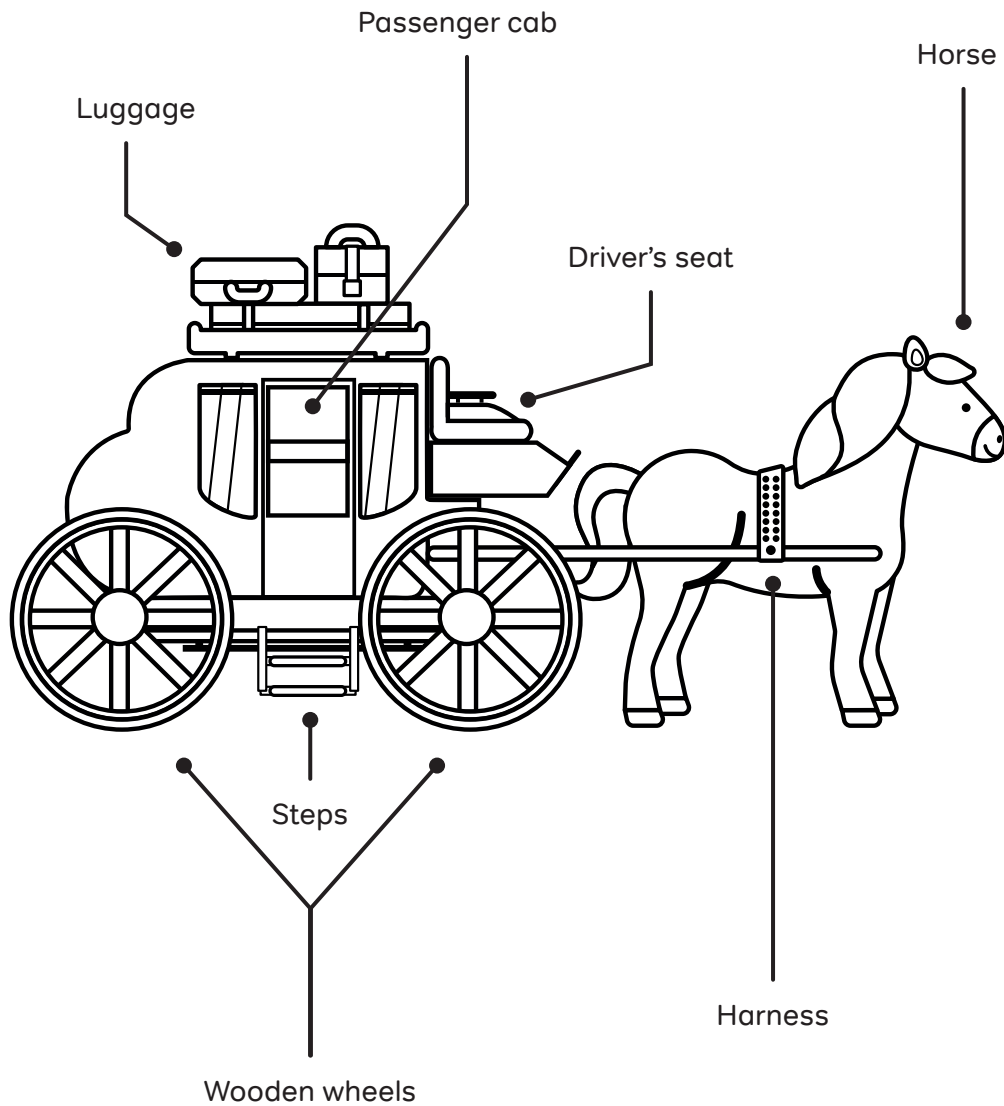

Stage Coach

Owner's Workshop Manual

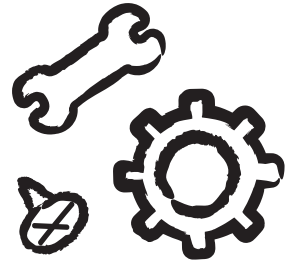

- Horses pulled stage coaches
- Stage coaches carried both people and materials
- They were invented before cars and were the fastest way to travel long distances
- They were lightweight so that they could move quickly
- Some stage coaches carried mail from place to place

Stage Coach Information

Use your favorite colors to decorate the stage coach!

Stage Coach Design Challenge

Stage coaches were used a lot, a *loooooong* time ago. They were used before cars were invented, and at the time were the quickest way to travel over long distances.

What you need to do...

Imagine going back in time and you were asked to make **one change** to the stage coach to make it even better! Draw your new design on the next page.

Things to think about:

Can you think of any stronger or faster animals than horses?

Make sure there are still places for the passengers to sit!

What might the roads have been like back then?
